
USC Leventhal School of Accounting

Consistently ranked as one of the top five accounting programs in the nation, the USC Leventhal School of Accounting is well known for its strong ties to the business and accounting communities. The school's location, just minutes from the Los Angeles financial district, and its position within the highly rated Marshall School of Business provide students with exceptional career opportunities.

The Leventhal School of Accounting is dedicated to maintaining a leadership position in accounting education and research. We are committed to educational programs that seek to establish in each graduate the potential for career development into the highest executive levels of public accounting, controllership, financial management and management of accounting information systems. The accounting curriculum explores not only the state of the art but also seeks to explore the accounting discipline's future structures and directions. Relevant concepts and techniques from other academic disciplines are drawn upon and integrated into all accounting programs.

Accounting education has been an integral part of the School of Business Administration since its establishment in 1920. With the inception of the School of Business Administration, the Department of Accounting offered a Bachelor of Science degree in business administration with an emphasis in accounting. The Leventhal School of Accounting was established in 1979, joining less than a dozen other leading institutions in the nation emphasizing formal professional accounting education. The Leventhal School of Accounting continues to rank as one of the premier AACSB-accredited accounting programs in the nation.

Currently the Leventhal School of Accounting undergraduate program offers a Bachelor of Science, Accounting degree within which a student may choose the accounting track, the accounting information systems track or the graduate track. Honors students may be eligible for admission to the progressive degree, an efficient way to complete both undergraduate and graduate degrees. An accounting minor is also offered to students outside the Marshall School of Business. The graduate programs include a Master of Accounting, a Master of Business Taxation and, in conjunction with the Law School, a Juris Doctor/Master of Business Taxation. A Ph.D. degree with an accounting major is offered through the doctoral program in the Marshall School of Business.

Degree Programs

Undergraduate Degree

Bachelor of Science, Accounting

The USC Leventhal School of Accounting offers the Bachelor of Science, Accounting (B.S.) degree designed to prepare students for entry into the professional program leading to a Master of Accounting degree. The undergraduate curriculum also provides a general background in business necessary for entry into the accounting profession. There are three tracks from which students can choose: the accounting track, the accounting information systems track or the early admitted graduate track. The early admitted graduate track is for USC B.S., Accounting students who apply, and are accepted, for early admission to the Leventhal School of Accounting's Master of Accounting or Master of Business Taxation programs.

Graduate Degrees

Master of Accounting

The Master of Accounting (M.Acc.) program provides an integrated curriculum designed to prepare graduates for careers in professional accounting, public accounting, industry and government. Students have the opportunity to study accounting in greater depth than is typically provided in an undergraduate

accounting program or an M.B.A. program with a concentration in accounting.

Admission does not require an undergraduate degree in accounting or business, nor is work experience a requirement. For students with an undergraduate degree in accounting the program requires 30-36 units for completion; for non-accounting students the program requires 45-54 units.

Master of Business Taxation

This specialized program in taxation requires 30-51 units (depending on undergraduate background) and is offered to full- or part-time students and leads to the Master of Business Taxation (M.B.T.). The program is designed for accountants, attorneys and others who wish to learn or improve skills and knowledge through participation in advanced tax study. This group may be engaged in tax practice, in business management or in government administration.

Juris Doctor/Master of Business Taxation

The USC Gould School of Law and the Leventhal School of Accounting offer this dual degree program. Admission to the J.D. program offered by the Law School is required before applying to the M.B.T.

program offered by the Leventhal School of Accounting.

Master of Business Administration

The Master of Business Administration (M.B.A.) with an optional accounting concentration, offered by the Marshall School of Business is also serviced by the Leventhal School of Accounting. For additional information, consult the Marshall School of Business section in this catalogue.

Doctor of Philosophy

The Marshall School of Business offers the Doctor of Philosophy (Ph.D.) degree in conjunction with the Graduate School. A student electing to major in accounting may design a research program that emphasizes auditing, financial accounting, information systems, management accounting and taxation. More information on the doctoral program is available in the Marshall School of Business section of this catalogue, or contact the doctoral office at (213) 740-0674 or the director of doctoral studies in accounting at (213) 740-4838.

Undergraduate Degree

Bachelor of Science, Accounting

The USC Leventhal School of Accounting offers the Bachelor of Science, Accounting (B.S.) degree designed to prepare students for entry into the professional program leading to a Master of Accounting degree. The undergraduate curriculum also provides a general background in business necessary for entry into the accounting profession. There are three tracks which students can choose: the accounting track, the accounting information systems track or the graduate track.

Admission

Students may be admitted to the program as incoming freshmen, as USC undergraduates transferring from another major or as students transferring from another college or university. Admission to Marshall is dependent on admission to the university and on academic performance, particularly in quantitative areas. USC students who have not been admitted to the major or the minor in the Marshall School of Business and/or the Leventhal School of Accounting may complete a maximum of 12 units from the Marshall School of Business and/or the Leventhal School of Accounting. No further course work may be taken unless a student is admitted.

Marshall Honors

Marshall Honors is available upon graduation to majors in business administration or accounting and results in a special designation of departmental honors on a student's transcript. Achievement of Marshall Honors requires completion of BUAD 491 Honors Seminar (2 units) and maintenance of a minimum GPA of 3.5 in upper division Marshall School of Business and Leventhal School of Accounting courses. To enroll in BUAD 491, students must have senior standing, a minimum overall GPA of 3.3 and completion of at least 32 units of upper division BUAD courses with a minimum GPA of 3.5. For additional information, contact the Marshall School of Business Office of Undergraduate Advising, Bridge Hall 104, (213) 740-0690.

Bachelor of Science, Accounting, Degree Tracks: Accounting Track, Accounting Information Systems Track and Graduate Accounting Track

Bachelor of Science, Accounting students choose the accounting track, the accounting information systems track or the graduate accounting track. The accounting track is geared toward accounting or auditing in, for example, industry, government or not-for-profit entities. The accounting information systems track focuses on the design, implementation and utilization of accounting information systems. The graduate accounting track is for students planning to continue their undergraduate education in the Master of Accounting program or the Master of Business Taxation program.

B.S. Curricular Requirements for All Tracks

For all tracks, the B.S., Accounting is a 128-unit program. The curricular requirements fall into two parts: lower division (first and second years) and upper division (third and fourth years). In the first two years, accounting students share with all business students a curriculum designed primarily to provide a sound intellectual foundation for the major as well as prerequisite courses. In the last two years, the students devote much of their study to business and accounting subjects.

Advisement

Academic advisement is provided through the Leventhal School of Accounting Student Services Office in Accounting 101, (213) 740-4838. Pre-business and business students will be required to meet with an academic advisor before registering and this requirement will be in effect until 24 USC units are completed. However, all students are encouraged to see an academic advisor on a regular basis. A record of each student is kept on file. Appointments for advisement may be scheduled at most times during the academic year. However, during busy times such as the pre-registration, registration and drop/add periods, advisors may be available on a walk-in basis only.

Leventhal Undergraduate Student Services and Marshall Undergraduate Student Services offer students assistance in networking, finding internships, resume writing, interviewing techniques and other career related issues.

Transferring College Credit

College Courses

USC has established articulation agreements with most community colleges throughout California. Most academic courses are acceptable for transfer credit from a two-year school, but students may not receive credit for specialized, technical or remedial courses. Courses that do not appear on the articulation agreement are not transferable. A maximum of 64 semester units may be transferred. Check with the Degree Progress Department (SAS 010) for questions about transferable courses or see a counselor in Accounting 101.

Official transcripts of college work taken elsewhere must be submitted, at the time of application, to the USC Office of Admission. A credit evaluation will be completed which will list transfer courses accepted for credit. All business courses completed at a two-year college, if transferable, will be considered elective credit.

There is one exception to this policy. Students may transfer two semesters of introductory accounting and receive credit equivalent to one semester of introductory accounting at USC. Then students can register for BUAD 305 Abridged Core Concepts of Accounting Information and complete their accounting course requirement in one semester at USC. In this case, students would not be required to take BUAD 250ab.

Four Year Colleges

Most courses are acceptable for unit credit from all fully accredited four-year institutions. If the courses do not satisfy specific subject requirements at USC, they will be accepted for elective course credit.

Students are urged to complete all their required business administration courses at USC. All business courses from four-year institutions, if transferable, will be considered elective credit unless a challenge examination is passed. Only core classes, with the exception of BUAD 497, may be challenged. Students should consult with an academic advisor in Bridge Hall 104 to initiate the challenge examination process.

Grade Point Average Prerequisites for Transfer Students

Transfer students are required to meet the following grade requirements to be admitted to the Leventhal School of Accounting. An average grade of B in the two transferred accounting courses and BUAD 305 (with no grade lower than B-). Grades in accounting courses taken at other institutions will only be considered in meeting the admission requirement for the Leventhal School of Accounting. Once a transfer student completes a minimum of two accounting courses at USC, the student's accounting grades at the prior institution will no longer be considered in determining whether the student meets the 2.5 grade point average standard (see Grade Point Average Prerequisites following).

In the computation of grade point averages for accounting courses taken at other colleges or universities, the courses will be weighted in terms of the number of units provided for the equivalent USC accounting courses.

Grade Point Average Prerequisites

The following are grade point average prerequisites for any undergraduate student enrolled in any accounting course. Individual instructors may not waive these standards: (1) an average grade of B or better in BUAD 250a and 250b with no grade lower than a B- (transfer students see previous section); and (2) a minimum 2.5 grade point average (A = 4.0) for all accounting courses taken previously.

In meeting the B average required in BUAD 250a and BUAD 250b, only one of the courses may be repeated. If the repeated course grade is higher, that grade will be considered in determining whether the student meets the B average, and the original course grade will be disregarded by the Leventhal School of Accounting in the administration of its grade point average requirements. See Repeated Course Work at USC for further restrictions on including grades in repeated courses in the overall university grade point average computation.

In computing grade point average prerequisites, BUAD 250ab or BUAD 305x, and BUAD 302T will be considered accounting courses.

When a student's cumulative accounting grade point average falls below 2.5, the student is placed on probation. If a student on probation does not regain a minimum accounting cumulative GPA of 2.5 after completing the next 12 semester hours in all courses (including accounting units) attempted within the university, that student will not be permitted to continue as an accounting major in the Leventhal School of Accounting. Exceptions to this policy may be granted only in unusual circumstances by the Academic Standards Committee of the Leventhal School of Accounting. Decisions of the Academic Standards Committee are final.

To be removed from probationary status, a student may elect to take another accounting course or courses for which prerequisites are met or to repeat an accounting course or courses in an attempt to earn a higher grade. Regardless of the course of action taken, all courses completed will be counted in computing the cumulative accounting grade point average.

A grade of "W" in an accounting course taken while on probation will not extend probation. The probation period ends at the end of that semester during which the student completes a cumulative total of 12 semester hours of courses in any subject(s) at the university. Under no conditions will the student be permitted more than two successive semesters, including the summer semester, to complete the 12 semester hours of courses.

Graduation Standard

Students must attain a minimum 2.5 cumulative accounting grade point average (A = 4.0) to graduate with a Bachelor of Science, Accounting degree.

Lower Division Requirements

A total of 60 units of non-business course work is required for the B.S., Accounting degree. Students are expected to complete their prerequisites, general education requirements and BUAD 250ab before enrolling in upper division business classes. See the sample programs that follow for scheduling suggestions. Transfer students may meet individual subject requirements with three semester units or four quarter units.

Successful completion of upper division courses where lower division courses are prerequisites does not constitute a basis for waiving the lower division courses. For example, a student who passes BUAD 306 prior to taking BUAD 250b will not be waived from the BUAD 250b requirement.

In addition, international students working toward the business or accounting degree must take and successfully complete ALI 262 Argumentation. Exceptions to this policy may be granted by the chairman of the Business Communication Department (ACC 400).

General Education Requirements (32 units)

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing and diversity requirements, which together comprise the USC Core. See pages 60 and 245 for more information.

*Placement into MATH 118x is contingent on successful completion of MATH 117 or obtaining an acceptable score on the math placement exam or AP calculus or IB mathematics exam.

It is recommended that the required accounting course BUAD 250ab or BUAD 305x be completed before enrolling in upper division courses; however, it does not need to be completed for admission to the Marshall School of Business.

All prerequisites for business and all accounting and business courses must be taken for a letter grade.

A maximum of 24 units of undergraduate course work taken on a pass/no pass basis may be used toward the B.S., Accounting degree. No more than four units of credit (or one course) counting toward the general education categories may be taken on a pass/no pass basis. The writing course cannot be taken on a pass/no pass basis.

Accounting Minor

A minor in accounting is available to students in all schools and departments except the Marshall School of Business. The minor provides the opportunity for non-business majors to gain an understanding, from the perspective of the user of accounting information, of how accounting is used in the business world. To be approved for the accounting minor, students must have completed a minimum of 32 units of college-level courses and attained a minimum GPA of 2.75. Successful completion of the 22 units for the accounting minor requires a minimum GPA of 2.0 in the following courses:

COURSE REQUIREMENTS		UNITS
ACCT 410x	Foundations of Accounting	4

Graduate Degrees

The USC Leventhal School of Accounting offers two graduate degrees: the Master of Accounting (M.Acc.) and the Master of Business Taxation (M.B.T.). The M.Acc. program provides an integrated curriculum designed to prepare graduates for careers in professional accounting, public accounting, industry and government. Through its integrated curriculum, students have the opportunity to study accounting in greater depth than is typically provided in an undergraduate accounting program or an M.B.A. program with a concentration in accounting. The M.B.T. program provides in-depth specialization in taxation to prepare the student for a successful career as a tax professional.

The Leventhal School of Accounting also offers the dual Juris Doctor/Master of Business Taxation (J.D./M.B.T.) degree program in conjunction with the USC Gould School of Law. The combination of broad legal education with detailed tax specialization prepares graduates for fast-track careers in law and accounting tax practices.

The Marshall School of Business offers the Doctor of Philosophy (Ph.D.) degree in conjunction with the Graduate School. A student electing to major in accounting may design a research program that emphasizes auditing, financial accounting, information systems, management accounting or taxation. For more information on the doctoral program, see the Marshall School of Business section of this catalogue, page 171, or contact the doctoral office at (213) 740-0670 or the director of Doctoral Studies in Accounting at (213) 740-5025.

Admission to Master's Programs

The Leventhal School of Accounting seeks individuals who have the potential for outstanding achievement in accounting or taxation. The Admissions Committee takes into consideration the candidate's academic record, the Graduate Management Admission Test (GMAT), recommendation letters and written essays. Candidates are reviewed on the merits of their application and the merits of the applicant pool for the semester in which they seek admission.

Applicants to the full-time programs are not required to have any previous work experience. Applicants to the part-time M.B.T. program are required to have a minimum of one to two years full-time professional experience in tax after receiving an undergraduate degree.

Application to the Programs

To ensure a place in a program and adequate time to receive an admission decision, it is important to send completed application materials to the Leventhal School of Accounting Master's Programs Admissions Office well in advance of the term in which the applicant wishes to register. If work is still in progress, the applicant should state specifically what courses are in progress and an estimated completion date.

For all programs, an admission decision cannot be made without the following: (1) a completed USC Leventhal School of Accounting online graduate application (available at www.marshall.usc.edu/lsoa); (2) an application fee of \$85; (3) one official transcript from the registrar of each college or university attended (undergraduate and/or postgraduate) whether course work was completed or not. If all college or postgraduate work has not been completed, transcripts must be requested when work in progress is completed and degree is earned; (4) two letters of recommendation from faculty members or employers; (5) a written essay, not to exceed two pages, describing your career plans and how a M.Acc. or M.B.T. degree will help you achieve these plans; (6) a resume summarizing your background; (7) an official Graduate Management Admission Test (GMAT) score report or, for J.D./M.B.T. applicants or attorneys, an official Law School Admission Test (LSAT) score report; and (8) an interview.

Interviews are required for all qualified applicants to the full-time M.Acc. and M.B.T. programs. If you live outside of the U.S., telephone interviews are required. The graduate admissions advisor will contact applicants to discuss scheduling an interview after an application is complete.

Following the requirements noted above, applicants for the J.D./M.B.T. dual degree program should apply to the Leventhal School of Accounting for admission to the M.B.T. program in the second semester of their first year in the USC Gould School of Law. In addition, current Law School transcripts and a "letter in good standing" from the registrar of the Law School must be submitted as part of the application. The same Leventhal School of Accounting admission criteria apply to the M.B.T. portion of the J.D./M.B.T. program.

International Students

In addition to the application process mentioned above, international students must submit results from the Test of English as a Foreign Language (TOEFL). Accounting requires a minimum score of 600 on the paper exam, 250 on the computer exam and 100 on the Internet exam of the TOEFL. A letter of financial support is also required. Transcripts from international universities must be submitted in the original language, as well as in English. The transcripts may have either percentile grades or letter grades.

Progressive Degree Programs: Bachelor of Science, Accounting/Master of Accounting and Bachelor of Science, Accounting/Master of Business Taxation

The Leventhal School of Accounting offers students who have demonstrated exceptional academic success in undergraduate accounting the opportunity to earn both the Bachelor of Science, Accounting, and a master's degree in five years. Applicants to the program must have completed 64 units of course work and must submit their applications before completing 96 units of course work. AP units, IB units and course work taken prior to high school graduation are excluded from the unit count. Applicants to the progressive degree program in Accounting may not have to submit GMAT scores.

The application for admission to a progressive degree program must be accompanied by an approved course plan proposal and letters of recommendation from two USC faculty members in accounting. The requirements for both the B.S. and the master's degree must be satisfied. For more information on progressive degree programs, see page 84.

Application Deadlines**M.Acc.**

Full-time *only*:

Feb. 1 – All international applicants

March 1 – U.S. citizens/permanent residents, non-accounting undergraduates

May 1 – U.S. citizens/permanent residents, accounting undergraduates

M.B.T.

Full-time:

Feb. 1 – All international applicants

March 1 – U.S. citizens/permanent residents, non-accounting undergraduates

May 1 – U.S. citizens/permanent residents, accounting undergraduates

Part-time:

Nov. 1 – All applicants for the spring semester

June 1 – All applicants for the fall semester

We recommend that applicants to the full-time master's programs who wish to be considered for scholarship submit *all* application materials by February 1. Awards will be given based on the availability of funds for applications received after this date.

Application decisions will be made on a rolling admission basis until the programs are filled. Applicants are urged to file a completed application as early as possible. Applications that arrive after the regular deadline will be considered on a space available basis.

Change of Degree Program

Students currently enrolled in a USC degree program who wish to change their degree status to the Master of Accounting or the Master of Business Taxation programs must submit a formal application to the Leventhal School of Accounting.

Master of Accounting

The Master of Accounting program (M.Acc.) prepares graduates for careers in public accounting, industry and government. USC's M.Acc. program is one of the first professional accounting curricula integrating undergraduate and graduate education in the nation. The objectives of the program include developing the sound conceptual, technical, analytical and communication skills that are required to succeed in the accounting profession. The program employs a rigorous case analysis approach that requires students to exercise their analytical abilities and develop effective verbal and written communication skills. The program also seeks to instill a deep appreciation and respect for the crucial role of the independent accountant in our free enterprise economy. This perspective provides

Limited Status

The Leventhal School of Accounting does not permit students to take classes prior to receipt of completed application materials and a positive recommendation by the Admissions Committee. Students completing a program at another accredited university outside of Los Angeles may take courses in the Leventhal School of Accounting. They must provide a letter from their dean stating that the requested classes will be accepted for transfer to their degree program.

Applicants Denied Admission

Applicants who are denied admission may review the reasons for nonadmission in person or by telephone with the director of the master's programs. These meetings are conducted for the express purpose of counseling the applicant on appropriate measures to improve the possibility of admission for a future semester.

Retention of Files

Files for applicants who (1) were not admitted, (2) did not complete their files or (3) declined admission will be purged 12 months after the semester for which they applied. Files for graduated students will be purged after five years.

Residence Requirements

Subject to approval of the Leventhal School of Accounting, the maximum number of transfer credits that may be applied toward the master's degree is three units. To be applied to the degree, transfer work must have been completed within five years of admission to the master's program. Graduate transfer credit will not be granted for course work taken elsewhere after a student has been admitted and enrolled at USC. Credit

will only be allowed for courses (1) from an AACSB-accredited graduate school, (2) of a quality of at least 3.0 on a 4.0 grading scale, (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level, and (4) fitting into the logical program for the degree. Transfer course work is applied as credit (CR) toward the degree and is not included in the calculation of a minimum grade point average for graduation.

the bedrock of the professional attitudes and responsibilities of CPAs today.

In this world of "re-engineering," the term "public accounting firm" is becoming obsolete. CPA firms now view themselves as "professional service firms." This dramatically changes the role of the CPA. The profession requires highly visible, articulate business professionals with the ability to interact on many levels within a client's organization. This requires individuals with diverse backgrounds, making the profession ideally suited for those with accounting, business, liberal arts or sciences undergraduate degrees. Students may apply to the M.Acc. program during their senior year or after completing

Duplication of Courses

Ordinarily, courses may not be repeated for credit. For courses that may be repeated for credit, the maximum amount of credit is indicated after the unit value.

Waivers

Subject waiver of required courses may be granted to students based upon prior academic work. All waived courses must be replaced with approved electives.

Students should carefully read their program evaluation form to know what electives must be taken if they are granted subject waivers. To be granted a subject waiver in a particular field, the student must have (1) completed at least two relevant courses in the field at the upper division or graduate level, (2) earned a grade of B or better, and (3) completed the courses no more than five years before entering the master's program at USC from an AACSB accredited business school (or equivalent economics department).

Further information regarding the waiver policy in the Marshall School of Business may be obtained from the Graduate Registration and Advisement Office, Bridge Hall 101A, (213) 740-5424.

Intensive Accounting Principles and Practices Course

Each summer the Leventhal School of Accounting offers an eight-week course, ACCT 525x Intensive Accounting Principles and Practices, that provides college graduates without an accounting undergraduate degree with the prerequisite technical accounting knowledge necessary for graduate work. Fifteen semester hours of credit will be received upon successful completion of the course. Second-year M.B.A. students

seeking accounting positions will also find this program useful. The technical accounting skills taught in this course may also enhance employability and career advancement for law students and graduate students in non-business areas of study. This course is not designed to be a preparation course or a review course for the CPA Exam. For further information regarding the intensive course, contact the Leventhal School of Accounting at (213) 740-4838.

Master of Business Taxation

Understanding taxation is critical to understanding every business decision and many personal decisions as well. Whether starting a business or starting a family, tax planning must be done. Because of the complexity of the tax law and its pervasive influence, people facing tax decisions routinely call on tax professionals for advice in planning and structuring their affairs in order to comply with the law and to ensure economic good sense.

The Master of Business Taxation (M.B.T.) program is designed to develop the skills and expertise professionals need to assist individuals and firms trying to cope with myriad tax legislation and regulation at both the federal and local levels. While gaining technical expertise is a central aim of those enrolled in the program, this expertise is not enough. Taxation encompasses law, economics, accounting and politics, and the astute tax advisor must understand all of the factors that influence the making of tax law and its administration. As important as learning the law and mastering research skills is the ability to communicate professional insights to others. The program provides a broad understanding of taxation, an appreciation for the complexities of decision-making and practice in explaining the tax implications of various courses of action.

The M.B.T. program provides an opportunity to examine tax topics thoroughly in an organized, rigorous fashion. Both full- and part-time students examine in depth an area of taxation, such as estate planning or taxation of foreign operations. Tax practice does not provide sufficient opportunities to study all of the areas influenced by taxation, nor does it allow the time to take an in-depth look at one area. In the M.B.T. program, a student develops an overview of the important areas of tax practice and builds expertise in specific topics.

The career opportunities today in the area of taxation are as great as the need for professional tax advice. The M.B.T. program prepares men and women for major roles in planning and decision-making with firms.

Program Requirements

The program requirements include courses in taxation, accounting and business selected from the four groups of courses listed below. A minimum of 21 units must be in taxation ("T" designated) courses. Waiver of courses in Group I may be granted to students based on prior academic work of high quality from an AACSB International, the Association to Advance Collegiate Schools of Business, accredited school. Waiver of such courses may reduce the minimum number of units to be taken within the M.B.T. program to 30 units. The courses in Group II are required of all students. The student must choose a total of 15 units from Groups III and IV, with a minimum of 9 units from the courses listed in Group III. The student may choose up to six units from the courses in Group IV or other courses approved in advance by the director of the M.B.T. program.

Progressive degree students earning their B.S., Accounting/Master of Business Taxation must begin the graduate level course work specified in the fall semester. Students should have successfully completed all accounting course work required for a B.S., Accounting prior to the fall semester in which they begin their graduate level requirements. These students will complete the same program requirements as a full-time M.B.T. student with the exception that a maximum of one-third of the course units for the master's degree may overlap with units for the bachelor's degree per departmental approval. For more information on progressive degrees, see page 84.

Juris Doctor/Master of Business Taxation

Dual Degree Program

The Leventhal School of Accounting, in conjunction with the USC Gould School of Law, offers a program leading to the dual degree of Juris Doctor/Master of Business Taxation (J.D./M.B.T.). This program permits a student to pursue a specialized program in taxation through courses in the Marshall School of Business, the Leventhal School of Accounting and the USC Gould School of Law. The M.B.T. portion of the program leading to the J.D./M.B.T. is 45 units, including 10 units of law school courses that are recognized by the Leventhal School of Accounting toward the J.D./M.B.T.; a maximum of 33-36 units of Marshall School of Business and Leventhal School of Accounting courses are recognized by the law school toward the J.D./M.B.T. Students must complete 76 law units to satisfy the J.D. portion of the dual degree.

Unit Requirements

The total number of units required for the M.B.T. portion of the J.D./M.B.T. program will vary, depending on the educational background of the individual student, but all students are required to complete a minimum of 30 units of business courses and maintain an overall grade point average of 3.0 for these courses. A total of 15 units of taxation, accounting and business courses listed below in Group I may be waived by the Leventhal School of Accounting if the student has completed substantial academic work of high quality from an International Association for Management Education-accredited school.

The courses in Group II are required of all J.D./M.B.T. students. Students must choose a minimum of six units from Group III courses and a minimum of 12 units from Group IV courses. In addition, a student may choose three elective units from Group V courses or another course approved in advance by the director of the M.B.T. program.

Course Duplication and Prerequisites

Credit in a law course precludes credit in the corresponding business course, and credit in a business course precludes credit in the corresponding law course.

In addition, where credit in one program's course precludes credit in the other program's corresponding course, the course in which credit is received will be deemed to have met the prerequisite for all subsequent courses in either school.

Corresponding Courses

ACCT 561T and LAW 644
ACCT 551T and LAW 842

Note: LAW 600 Taxation must be taken in place of ACCT 560T to meet the J.D./M.B.T. requirement. LAW 644 Corporate Tax may be taken in place of ACCT 561T to meet the M.B.T. course requirements.
